Computer Science Graduate

Personal Statement

A skilled student who has just graduated from studying computer science at Birmingham City University. Highly motivated in learning new skills in computing and the surrounding areas. Mainly looking for a data analyst or software engineering role. I work great in a team and have great time management skills. I also have the ability to handle multiple projects at a time and remain calm under pressure.

Visual Studio

Hobbies

I have many interests surrounding science and technology as you can tell from my choices in education. As well as trying to gain a wide variety of skills both in education and out. Another interest of mine is gaming which I do in my spare time when I'm not studying. Other interests of mine include cooking, fashion and modern art. I used to play ultimate Frisbee one of the world's fastest growing sports. I also follow the NFL, which I am so into I have been to Wembley to see it live multiple times and plan on going to see it again.

Certifications

08/2014

LFS101x: Introduction to Linux

edX Honor Code Certificate for Introduction to Linux
